

Salaried GP (6-8 sessions)

Are you looking for a role where you spend more time with patients and less with paperwork? Are you looking to develop in a supportive environment?

TESTIMONY OF A SALARIED GP *"I have been a salaried GP for 3 years and came straight to Priory after finishing VTS. I found the frequent reviews in my first year extremely helpful as it meant I could quickly address elements of the job that I was finding difficult. This stopped those elements snowballing! It also meant that I got to know my supervisor well; this was a big support and continues to be now. I have benefitted hugely from the very open culture at PMG - our daily meetings are a very safe space to ask questions or raise issues (clinical or otherwise). The culture is very open and everyone is happy to ask or be asked for advice or support (again with clinical or non-clinical situations).*

Key aspects of Priory Medical Group:

- High standard of clinical care, obtaining 100% QOF in the last 3 years
- An innovative approach to transformation of the workforce with practice employed MSK specialists, pharmacists, Urgent Care practitioners and Advanced Nurse practitioners working alongside a dedicated and specialist team of practice nurses, focused on the delivery of urgent and routine care.
- Rolling program of education for clinicians, GP training practice with 6 GP trainers and extensive teaching opportunities with Hull York Medical School
- Active representation on and engagement with Health and Social Care Commissioners and the Voluntary Sector.
- Designed and delivered a National Integrated Care pioneer service. The York Integrated Care Team is a primary care employed and GP led service that has achieved international recognition.
- Delivery of health care services to local educational establishments and HMP and private secure facilities.
- Extensive and expanding involvement in research trials
- Actively pursuing in all 10 high impact actions in the GP forward view

Are you interested in joining our Salaried GP team? Frequently Asked Questions

How much of my day is taken by administration work in a large practice?

We have dedicated teams who exist to take as much administration work away from Salaried GP's as we can. We hear some great things from our clinicians about the difference these teams make to their working days.

Our dedicated centralised patient contact centre (call handlers) and reception teams are empowered to investigate and resolve as many patient queries as possible so our GP's don't have to.

Our dedicated centralised administration team an average length of service of over 11 years. These guys are very experienced and knowledgeable. They process referrals, code letters, summarise notes and deal with queries so you don't have to.

Our dedicated prescription administration team and clinical pharmacists provide a great service to our GP's, processing large amounts of prescriptions.

What have others said about their experience?

Priory Medical Group: First Years Programme

This initiative was developed in 2017 to support doctors new to the practice, in particular to assist those newly qualified doctors to transition from GP trainee to salaried GP. We feel this approach best demonstrates the importance we place on the experience we provide salaried GP's. (see www.priorymedical.com for more details)

Salaried GP Testimony;

"I have been a salaried GP for 3 years and came straight to Priory after finishing VTS. I found the frequent reviews in my first year extremely helpful as it meant I could quickly address elements of the job that I was finding difficult. This stopped those elements snowballing! It also meant that I got to know my supervisor well; this was a big support and continues to be now. I have benefitted hugely from the very open culture at PMG - our daily meetings are a very safe space to ask questions or raise issues (clinical or otherwise). The culture is very open and everyone is happy to ask or be asked for advice or support (again with clinical or non-clinical situations)."

What are the terms and conditions?

Our rates are competitive and comfortably within the suggested salary range. We also pay your GMC and Medical Indemnity so you don't have to. We are always working hard to make sure your terms are as favourable as others (sick pay entitlements with previous NHS service taken into account, occupational maternity pay, occupational paternity pay, annual leave, CPD leave, etc.)
